APPLICATION FOR PRODUCER MEMBERSHIP

DUES COMPUTATION SCHEDULE

The North Carolina Aggregates Association has two classes of membership, Producer Members and Associate Members.

Producer membership is open to any company engaged in the production and/or sale of sand, gravel, crushed stone or other aggregate products in North Carolina. The Annual Membership Dues, set by the Board of Directors, are calculated as follows:

PRODUCER MEMBERS:

By February 1st each year, every producer company reports the number of plants in each production class for the prior year. Each class has a "weighting factor" or "unit" value. The units are summed for all plants reported by a member.

Class	Annual Production	Weighting Factor/Units	Annual Dues Per Plant
A	Over 1,000,000 tons	8	$5,640
B	500,000 to 1,000,000	6	$4,230
C	250,000 to 500,000 tons	4	$2,820
D	Less than 250,000 tons	2	$2,205 minimum

For example, a company with 2 Class A plants (2x8 = 16) and 1 Class B plant (1x6=6) would have 22 units.

To provide a means of balancing the financial burden between larger and smaller producers, a discount system (I and II) is applied for companies with a large number of plants as follows:

- First 5 plants – Pay full amount
- Over 5 plants – Pay ½
- Over 10 plants – Pay ¼
- Over 15 plants – Pay 1/8

This discount is applied when calculating the units per company and can be applied to the number of units in each Class (Discount I) or to the total number of units per company (Discount II) whichever provides the largest discount. For example, a company with:

- Class A - 8 plants
- Class B - 3 plants
- Class C - 2 plants
- Class D - 1 plant

	Class A	Class B	Class C	Class D	Total Units
Plants	8	3	2	1	
No Discount	8 x 8 = 64	3 x 6 = 18	2 x 4 = 8	1 x 2 = 2	92
Discount I	5 x 8 = 40 3 x 4 = 12 8 52	3 x 6 = 18	2 x 4 = 8	1 x 2 = 2	80

APPLICATION FOR PRODUCER MEMBERSHIP

DUES COMPUTATION SCHEDULE (continued)

		Total Units
Discount II	Total number of plants = 14 i.e. 5 x 8 units = 40 5 x 4 units = 20 4 x 2 units = 8 14 plants 68 units	68

Hence, Discount II yielding 68 total units will provide the largest discount. Company dues would then be 68 x $705 = $47,940.

There are no maximum dues. Minimum producer dues are $2,205. Producer members may elect to pay quarterly. Payment for the full year is encouraged.

BUDGET:
Based on anticipated revenue, a preliminary budget is approved by the Executive Committee in January and a final budget by the Board of Directors normally in June.
